**Broader Impact**
Mineral supply chains contribute positively to social economic development

**Desired Outcome**
Business practices evolve to support responsible mineral sourcing globally to help foster peace and stability

**Upstream**
Technical Assistance, Due Diligence Review of Upstream Mechanisms, Support for Artisanal and Small Scale Mining and Sourcing from Conflict-Affected and High-Risk Areas

**Midstream**
Responsible Minerals Assurance Process:
- Standards
- Training
- Independent 3rd Party Assessments
- Financial Assistance

**Downstream**
Resources to Support Responsible Sourcing:
- Capacity Building
- Supply Chain Mapping
- Supplier Outreach and Engagement
- Reporting Guidance
- Pooled Research and Data

**Emerging Risks**
- Credible Resources
- Sensing Research and Prioritization
- RMI Engagement Approach

**Stakeholders and Partnerships**
Align and Drive Consistency and Cooperation:
- Identify Equivalencies
- Implement Projects
- Engage in Outreach and Joint Advocacy
- Pool Resources
- Share Best Practices

**Membership - Organizational Governance - Program Development**
Peer Learning, Programs and Tools Development for Priority Minerals, Grounded in OECD Guidance and International Best Practices
Country of Origin Determination, Risk Readiness Assessment, Grievance Mechanism
